

REMARKS / ARGUMENTS

This amendment is submitted in full response to the outstanding Office Action dated March 2, 2005, wherein the examiner has indicated that all 18 claims as originally filed have been allowed.

However, the Examiner indicates specific objections to the wording of the specification as indicated on page 2 paragraph 1 of the Office Action. The changes outlined by the Examiner have been made as set forth above. Additional minor changes have also been made in the specification in order to correct any informalities and inconsistency in the language thereof. Care was taken to not add any new subject matter.

Applicant wishes to thank the Examiner for the conscientious review of the application and specifically pointing out portions of the specification which require correction.

Based on the included amendments to the specification, it is believed that this application is now in condition for allowance and such action is respectfully requested.

In the event that any additional fee may be required by the filing of this paper, the Commissioner is hereby authorized to
